**Presentation: Department of Agriculture**

Alta Meyer

Qwaqwa district office

Project coordinator

Mahuhubung- primary agriculture production

Develop agriculture industries

Primary production of farmers

Partnerships- invest- factory

Investors to come and invest and contribute- beneficiaries- farmers- must have a share in the farm-

Address one of the 9 outcomes- job creation- contributing to social problems- schools empty- go to bigger cities- keep in rural areas- products, process it and then sent it to Gauteng- projects

Land reform projects- 20 in the area- most of time they lease the land- not enough cattle or resources – means to be productive

9 farms assisted in the previous year-

100 hectares- improve soil

Shows- donated goats to farmers

Vegetable project

Market opportunity and job- creation- food industries- packaging of products, processing or projects

Red meat abattoir- need support of all farmers in the area

Identify products doing well in the area, know what is working in the area or not

Warden- potatoes

Implimentation in phases and taking into consideration resources

100 cell pig farming project

All pigs taken 4 km out of scared road- security fence is up, as soon as funds are available, the project will start- linked to abattoir

14- schools- church in Vrede Warden and Memel
