5.	Acceptance of the Minutes The minutes were accepted as true reflection of what was discussed during the previous meeting.	ALL
6.	Matters Arising from the Previous Meeting None.	ALL
7.	Additions to the Agenda and Approval of the Agenda	
	None.	
8.	Items for Presentation	
	There were no items for presentation as there was no Projector. Rand Water will present on the next forum meeting.	
9.	Water Quality in the Wilge Catchment DWA	DWA
	 WF has been unacceptable for the past 3 months Fecal Coliform has not been analyzed for the past 3 months. Bethlehem WWTW was not complying for the past 6 months. 	
	WWTW that is always complyingTshiame sewage worksReitz sewage works.	
	Least compliant and of major concernBethlehem WWTWHarrismith WWTW	
	 Rand Water Rand Water presented their water quality status report; generally there have not been any changes of Water Quality for this quarter. It was reported that there are four sewage works that are currently monitored by Rand Water. There is good performance with respect to ammonia in Tshiame. Data for E.coli is missing due to the fact that there have been problems with Rand Water data. 	Rand Water

	 Pollution Incidents There was a blockage at Qwa Qwa, due to pump failure. The municipality took the pump for repair There was a manhole blockage in Makwane and it was unblocked within three hours. Feedback on waste disposal sites T.Pather sent a feedback on solid waste disposal site. Ground water monitoring will be enforced next year for all sites (2011). Warden to apply for a new waste disposal site. There is a site but they need a new one. T. Pather mentioned that they must motivate for a new site. There will be a meeting on Thursday for the proposal. 	DWA
10	Report back from Stakeholders in the Wilge Catchment	
10.1	 Phumelela Municipality It was reported that R890.00 funding was received from DWA, contractors have been appointed and have started working on pump station no.4. 	Phumelela LM
